

The Virginia Cancer Plan
2013-2017
Cancer Action Coalition of Virginia

Your Network for a Healthy Virginia

Cancer Action Coalition Mission

- Reduce the incidence and impact (financial, psychological, and spiritual) of cancer and improve the quality of life for cancer survivors
- Facilitate collaborative partnerships
- Promote and assist with implementation of the Virginia Cancer Plan, the blueprint for cancer control in the Commonwealth

Cancer Action Coalition History

- CDC supports programs in all 50 states plus 6 tribal territories
 - Comprehensive Cancer Control and Prevention, Cancer Registry and Breast and Cervical Cancer Early Detection Program (known in Virginia as Every Woman’s Life)
 - CCC program mandated to have coalition partner
- Cancer Plan Action Coalition (CPAC) established in 1998
- Name changed to Cancer Action Coalition of Virginia (CACV) in 2011

3

Cancer Action Coalition History

- Financially Supported by
 - Agency contributions
 - Grants

4

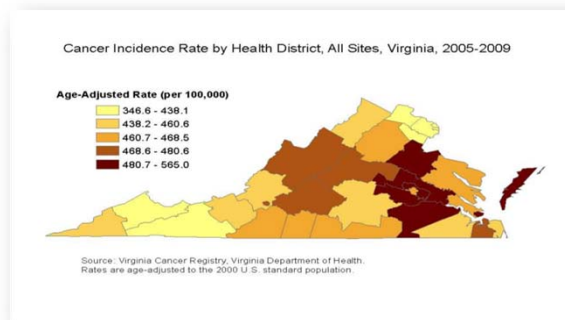

A Win-Win

The Virginia Cancer Plans have been written by representatives of key organizations in Virginia with a stake in accomplishing its objectives. It benefits all of us to leverage our combined efforts. The first plan was distributed in 2004, the second in 2008, and now, the third in 2013.

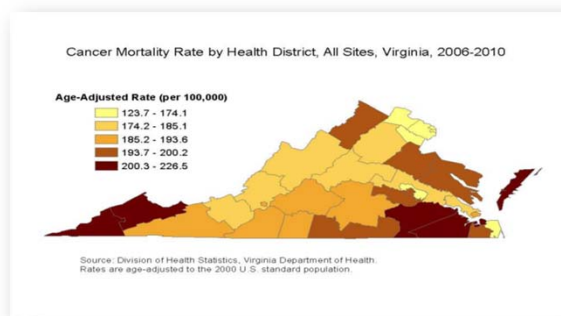

5

Virginia Cancer Incidence

6

Virginia Cancer Mortality

7

A Win-Win

- Action Teams serve as core group to identify priorities and serve as a catalyst to accomplishing objective
- Member organizations and community partners identify which objectives fit with their mission and agenda
- Member organizations and community partners identify ways to help accomplish and/or accelerate progress by contributing time, delivery channels and contacts

8

Cancer Action Coalition Organizational Structure

- General membership
- Board (elected by membership)
- Action teams
 - Prevention
 - Early Detection
 - Treatment
 - Survivorship

9

Goals

- Reduce risks of cancer for all Virginians through awareness, education and behavior change.
- Virginians are diagnosed with cancer at its earliest (local), most curable stage.
- Virginians with cancer will have access to appropriate and effective cancer treatment and care.
- Optimize the quality of life for every person affected by cancer across the continuum of care.

10

Legislative Involvement

- Addressing legislation for sun safety, such as tanning bed salons.
- Tobacco legislation that reduces exposures and to help the population for prevention of cancer.
- Ensuring that all Virginians have access to healthcare, and to cancer early detection screening services.
