The Medical Society of Virginia is a professional association of more than 11,000 Virginia physicians, medical students, residents, physician assistants and physician assistant students.
MSV and COVID-19
Consequences on Physicians and Healthcare Professionals

• The number of visits to ambulatory practices dropped by a whopping 60% in mid-March, and as of the Spring, continues to be down by at least 50% since early February (Harvard University)

• Among children aged 5 months, up-to-date status for all recommended vaccines declined from approximately two thirds of children during 2016–2019 (66.6%, 67.4%, 67.3%, 67.9%, respectively) to fewer than half (49.7%) in May 2020 (CDC)

• In a survey of 558 US primary care physicians fielded May 29 through June 1—nearly 3 months into the pandemic—6% of respondents said their practices were closed, perhaps temporarily, and 35% said they’ve furloughed staff (Primary Care Collaborative)

Advocacy and Policy

With the support of members, MSV has helped legislators understand the challenges and opportunities facing the medical profession.

Policymakers tell us that physician involvement is key to MSV's advocacy success. Through year-around advocacy and programming, the MSV strives to make our members a part of influencing the future of medicine in Virginia.
MSV’s House of Delegates is where policy decisions are made.

Policy drives year-round advocacy efforts.

MSV’s House of Delegates (HOD)

- Delegates vote on issues brought forward by resolutions.
- Any member can be a delegate! Be an MSV member, register for Annual Meeting
- Resolutions craft MSV policy and position on issues.
- Any MSV member can submit a resolution. Adopted resolutions become official MSV Policy in the Policy Compendium.
Choose Action April-September

Advocacy actions are driven by policy developed at MSV HOD

Advocacy proposals drive MSV action for the year and the future.
