Brittany Acors

Call to order and welcoming comments – Senator Barker

Roll Call - Agnes Dymora

JCHC Executive Director, Jeff Lunardi, provided an overview of the meeting goals and presented the five topics that were referred to the JCHC during the 2023 session.

After some discussion, the Members voted unanimously to take the following actions:

- Comprehensive school counseling program – send a letter to Virginia Department of Education to possibly complete the study on HB2264.
- Parental rights under non-genetic surrogacy arrangements – send a letter to Virginia Family Law Coalition suggesting they look into the topic.
- Extending current PBM licensure, audit, and other requirements to PBMs servicing ERISA plans – take up as a briefing to include summary of federal court decisions on ERISA plan regulations.
- Medicaid coverage for incarcerated individuals – pass by and take no action.
- Privacy standards for consumer-generated health data – pass by and take no action, revisit in the fall as a possible 2024 study.

Jeff also presented an overview of the JCHC dashboard to the members. Members asked to add “updated on” dates to the metrics. A complete briefing on the 2023 version of the Dashboard will be presented during the August meeting.

Meeting adjourned.
